Microwave Cable Assemblies Applicable up to 110 GHz

Rosenberger, the long-recognized RF & microwave technology supplier, has developed a comprehensive portfolio of standard flexible microwave cable assemblies - with and without armouring (Crush resistance with armour 80 N/mm) and characterized by excellent phase and amplitude stability as well as high electrical and mechanical stability.

The standard cable assemblies range covers ultra-low loss and high-phase stable variants for 18 GHz, 26.5 GHz, 40 GHz, 50 GHz and 70 GHz. For stringent test and measurement applications, where metrology grade performance is required, Rosenberger offers VNA test cables with performance even up to 110 GHz. Custom designed cable assemblies can be ordered on request, too.

About Rosenberger

Rosenberger Hochfrequenztechnik GmbH & Co. KG was founded in 1958. Rosenberger, a family owned company, ranks today among the world-wide leading manufacturers of standard and customer-specific connectivity solutions in high frequency, high voltage and fibre optic technology.

The product range covers RF coaxial connectors, RF test & measurement products, RF connectors for automotive electronics, medical and industrial electronics as well as fibre optic products, and cable assemblies. Renowned companies in high-tech industries, e.g. telecommunication, data systems, medical electronics, industrial electronics, test & measurement, aerospace engineering or automotive electronics trust the precision and quality of Rosenberger products.

Rosenberger is certified to IATF 16949:2016, DIN EN 9100, ISO 9001 and ISO 14001.

More than 2,400 people are employed today at the Rosenberger headquarters in Fridolfing/Tittmoning (Upper Bavaria, Germany). Worldwide, the Rosenberger group operates manufacturing and assembly locations as well as Rosenberger sales offices in Europe, Asia and North and South America where – in total – approx. 11,800 employees develop, produce and sell our products.
